Town of Hamilton to Host Meeting on Town Hall Project

The Hamilton Town Council invites residents to a review of the revised Town Office Building plans on Tuesday, October 23, 2018 at 7 PM at the Poolville Community Center, 7484 Willey Road in Poolville.

The Town Building Committee, comprised of Town residents and members of the Town Council have spent months looking at a variety of building techniques, plans, and materials. The goal was to address community concerns and plan for a building that efficiently meets the needs of residents and Town government. The meeting will include an overview of the committee's research, decisions making process, new design, and cost estimate for the new Town Office. Please join us for a continued conversation on this important project.

Additional information about the project will be posted on the Town's website at www.TownofHamiltonNY.org.
